

QUALITY STATEMENT

Hine labels produce packaging for food and non-food customers.

These products are produced by highly experienced and trained staff, who are supported by management to consistently deliver on time and within budget and aim to provide a service that will exceed our customers' expectation.

We will do this safely and in compliance with the BRC Global Standard for Packaging and Packaging Materials and current legislation.

We are committed to continuous improvement in all aspects of our business in order to advance the products and services we deliver to our customers and will ensure that all resources necessary to meet this commitment are provided.

This commitment provides the framework for the quality objectives we have set.

Anita Hine
